The latest SupaBrake product line
for your Yamaha! It's a proven
fact that motorcycles can
decelerate more rapidly than
most cars and trucks. The
combination of a motorcycle's
narrow profile and the brisk
change in velocity during
braking is the most common
cause of rear end accidents
involving motorcycles, and
often the results are fatal to
the rider.

Service You may ask, "Doesn't
my dealer do that?" NOT
UNLESS YOU TELL, HIM
THAT YOU WANT IT DONE.
This service should be completed
every tire change or 10,000 miles
(16,000k) or at least every two
years; but in most cases it isn't
done because we don't always
have a dealer replace our tires
and/or we don't tell him to do the
work. Fri, 18 May 2018 04:09:00
